

# Photoelectric 120 Volt Hardwire 470L

The American Sensors 470L is a general purpose 120 Volt AC Photoelectric hardwire smoke alarm. The unit can be interconnected up to 18 units and includes the "alarm source indicator" feature, which easily identifies the originating unit in an alarm condition. Photoelectric smoke alarms are most sensitive to particles produced from slow smoldering types of fires, and less likely to "nuisance" alarm from short exposures to heat or humidity commonly associated with false alarms.

## FEATURES

- 120 volt hardwire
- Advanced Photoelectric sensing technology
- No batteries required
- Interconnectable up to 18 units (combined with CO alarms)
- Alarm source indicator
- Alarm and power test feature
- Tamper Resistant "Lock-it" key mounting hardware included
- 10 Year Limited Warranty
- Meets applicable standards

**Item Order Number:** SAAU-470LA (U.S.A)  
SAAC-470LA (Canada)  
Master Carton Quantity of 10

## TECHNICAL SPECIFICATIONS

|                    |  |
|--------------------|--|
| Voltage:           | 120 volt AC 60Hz   |
| Interconnection:   | Up to 18 alarms  |
| Alarm Sound Level: | 85 dB at 10 feet (3 m)   |
| Indicator Light:   | Green LED indicates alarm is receiving power<br>Red LED indicates alarm source for interconnected alarms |
| Dimensions:        | 5.25" (133 mm) x 2.2" (56 mm)<br>(excluding base plate)  |

## NORMAL OPERATING CONDITIONS

|                    |                            |
|--------------------|----------------------------|
| Temperature Range: | 40°F (5°C) to 100°F (38°C) |
| Relative Humidity: | 10% to 85%                 |
